if you have any questions.

Supporting the next generation of local scientists and engineers.

The HAWAII' I YOUNG INVESTIGATORS PROGRAM (HYIP) is an opportunity for students to apply for funds to subsidize costs of supplies to conduct their Science Fair projects. This program seeks to identify and support Hawaii youths in grades 6-12 interested in conducting independent science research. Students will be required to write a proposal of their project along with a budget of expenses. Students will gain an introductory experience to the world of proposal writing, while applying for financial support of their project. All eligible students are encouraged to apply. The application process is competitive. Grants awarded are contingent on funding.

Applications are due SEPTEMBER 30, 2023

Visit www.hawaiiacademyofscience/hyip to learn more and apply.
